# ABOUT US

**Designer Home & Landscapes** is your one-stop solution for innovative Bathroom, Surfaces, and Landscaping needs. We believe that every individual is unique. So our home and working space should reflect that uniqueness. We have acquired an eclectic collection from all corners of the globe to offer our discerning buyers, an array of exquisite, innovative, and quality products.

## Our Journey

**Designer Home & Landscapes** was formed when its flagship store, Designer Home Solutions Pvt. Ltd was launched. It represented leading bathroom brands like Kohler & Imported Tiles. In 2009, Designer Surfaces was launched with a focus on Wood & Stones. In 2011, Designer Landscapes was founded to focus on terraces and gardens. Later in 2015, the Delhi store was launched to cater to our North Indian market.

Finally, in 2017, the store started its Landscape Design to provide an end to end products and services.

**Designer Home & Landscapes** is your one-stop solution for innovative Bathroom, Surfaces, and Landscaping needs. We believe that every individual is unique and our home & working space should reflect that uniqueness. We have acquired an eclectic collection for our discerning buyers from various corners of the globe to bring an array of exquisite, innovative, and quality products.

## Our Partner Brands

Apart from 5 showrooms in Kolkata & New Delhi, we have a presence in East and North India through our channel partners. We represent leading brands like Kohler, Weavecrafts, Weathertext, World of Stones, Stonecrete, Tempesta, Unistone, Restile, Nexion, Supergrass and many others from East & North India. Designer Group currently has 5 stores across 30,000 sq ft of retail space.

## Our Team

**Designer Home & Landscapes** was founded by Mr. Rohit Sarda, who did his Post Graduation from the Indian Institute of Management, Bangalore, and worked for 5 years in Sales & Marketing. We have a diverse team consisting of MBAs, landscape designers, civil engineers, supervisors, and various sales & marketing managers and executives having a vast array of experience between them. Our entire team works with the common philosophy of delighting customers with innovative products and a world-class experience.

# VISION & MISSION

Our Vision is that people spend quality time outdoors.  
Our motto is **“Love Outdoors, Live Outdoors!”**

With rapid urbanization and shortage of space, people need a place where they can experience fresh air and get a peaceful time. (without air-conditioners, televisions, computers and mobiles). It is crucial that people spend some quality time with their family and friends, cuddle their children, rekindle the romance, reconnect with their loved ones and spend some time with themselves.

The lockdown and restricted movement last year increasingly highlighted the importance of the balcony, terraces, and gardens as they became multi-purpose spaces to connect with the outdoor lifestyle.

However, for quality time, we need to have quality outdoors that makes one feel good about being there. Outdoors are often the most neglected part of any house and are used mainly for drying clothes or storing unwanted household items. Also, outdoor has the harshest climatic conditions with sun, rain, winds, and birds causing faster wear and tear to materials. Thus people put cost-effective materials without bothering about quality, aesthetics, or durability. Due to this cycle in play, there are hardly any options for quality outdoor products. The experience of making quality outdoors is a harrowing one as people are devoid of full range displays, quality products, sound advice, and prompt services.

Facades are an integral part of the building and only 1% of people who see the facade would see what is put inside the building. Well-designed Facades increase the life of the building, reduce energy consumption and save the recurring maintenance cost. People depend mainly upon unorganized contractors where there is a huge discrepancy in what they promise and deliver, and eventually the outcome in a couple of years.

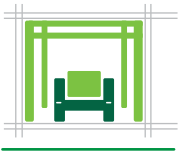

Our mission is to understand the needs of our customers deeply and passionately in order to provide innovative, unique solutions to make their experience memorable. We strive to build lasting relationships and set new benchmarks for growth. We want to Transform Outdoors & thereby Transform Lifestyles.

## “Transforming Outdoors, Transforming Lifestyles”

# WHAT WE DO

- » Designing for terraces, gardens, balconies, driveways, facades & boundary walls
- » Supply of all hardscape (wood/ stone/ tile + shading + furniture + planters) and softscape materials with warranty
- » Supervision of site with strict adherence to timeline
- » Execution of glass house, pergolas, decking, facade cladding and fencing work
- » Maintenance of softscape and hardscape oiling and sealers

# BRAND & QUALITY

Sorry, we refuse to compromise on quality. We understand that in the long term, only good quality products last. The need for quality becomes important when it comes to outdoors as the wear and tear are much more. There are the factors that affect outdoor products. These are:

**Sun:** The UV rays of the sun is harsh and can discolour and disfigure any object kept outdoors for a prolonged period. All products we acquire are UV resistant and age gracefully with time.

**Rain:** All our products are waterproof and can withstand ravages by water. An indoor product can get bent, cracked, softened, and chipped if they are not waterproof. We take great precautions in getting waterproof products.

**Wind:** Strong winds can blow away shades, light-weight outdoor furniture & planters. Our shading systems like gazebos, pergolas, and umbrellas come with the guarantee to withstand strong winds.

# Outdoor Wood

The term deck wood originates from the decks of ships made from a lightweight yet durable material. These species of wood with high density were able to withstand the wear and tear of the harsh outdoors and thus started being used. They eventually found their way into pool-sides, elevations, terraces, gardens, patios, balconies, cafes, backyards, and even bathrooms. People also use it to make pergolas, benches, and gates. We bring the finest variety of outdoor wood from Brazil, Australia & Portugal.

# Tipwood Facade

Tipwood is a natural fiber composite product using jute fiber, minerals and adhesives. It is a zero maintenance product and is suitable for both outdoors and indoors. It is available in wide variety of profiles with customised sizes, going up to 6 metres.

Extremely lightweight, Tipwood can be used for outdoor facades which gives the building exteriors a proportionate balance between the strength to weight.

Tipwood has been used extensively around the world, in a variety of applications, in building and construction, interiors, exteriors, furniture etc. It outperforms conventional building materials across all metrics, delivering durability and eco-friendliness, making your project future-ready.

# Outdoor Shading

Shading is an integral part of any landscaped space as it allows one to control temperature & light. It gives protection from rain, sun and birds. Often it becomes the centerpiece around which the landscape is designed. A well designed shading system allows the user to enjoy the light drizzle and even enjoy warm summers or cold winters in the shade. We offer a variety of shading products for outdoors namely Gazebos, Pergolas and Umbrellas. We have readymade options in FRP and WPC and we can also customise the same using IPE and Weathertex Outdoor Wood, Thermo Pine and WPC. We also have advanced roofing systems which are retractable and ideal for poolside and banquets.

# Windows

World of Aluminium Windows is synonymous with Windows & Doors for over 18 years. They are one of the leading manufacturer of apt. solutions for fenestration in PAN India and have become a trusted name in the industry. They have wide range of style options to suit every home and every form, from sliding windows to casement windows. They provide a fastidious approach, something from the repertoire or develop a new product for each and every price range.

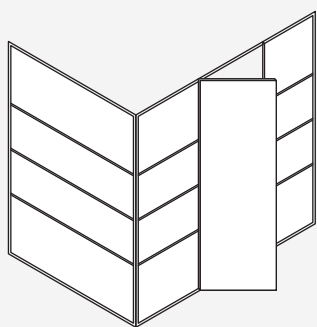

They provide quality products combined with premium service, reliability and compliance and here the target is providing dependable solution with follow through and not just selling a product. Here feedback matters more than the pitch and quality is placed above profit. The brand believes that the customer is always right. This assiduous approach is not new, It continues since inception. To this day, the company is engaged in manufacturing aluminium Windows & Doors to be used in residential and commercial places.

# Outdoor Furniture

All-weather outdoor furniture has brought about a paradigm shift to the concept of outdoor living with a large variety of hand-woven outdoor furniture. These are wicker furniture, braid & rope outdoor furniture, outdoor teak furniture, and umbrellas. Poised with utmost sensibility and attention to detail, the entire range of outdoor furniture caters to every corner of exteriors, from patio to terrace, pool-side to open courtyards. These kinds of furniture are popular among both retail and corporate clients alike.

Whatever the nature of the outdoors, whether commercial or residential, extensive or compact, we serve you as per your need and taste.

Our outdoor furniture offers are customized to suit your sense and sensibility, be it your balcony, pool-side or veranda, patio or terrace, or even the roof-top of a commercial complex with a gamut of products.

## Outdoor Decor

Once the flooring and wall are cladded, shading done and furniture installed, the icing on the cake is the outdoor decor. We offer a wide array of planters in stone, FRP and LED. Backlit LED planters brighten up dark spaces and add a touch of magic. We bring artifacts from all over the world to make outdoors stunning. The sound of cascading fountains is not just recommended by Vastu but also has a therapeutic value. We offer privacy screens in wood and GRC which can also adorn the walls. Besides, we also offer artificial rocks and designer lights.
